TIME TO STOCK UP

Take advantage of the growing period. Prepare now for the forthcoming Fall sales, and the Christmas and New Year's business.

Summer, as we all know, is the most ideal growing period, especially for ornamental foliage - mostly of exotic and tropical nature. Therefore, it is advisable to fill up every available space in order to get the utmost in return later on.

In the following list of material, we are endeavoring to make available Tropical Plant Material, small plants for Dish Gardens, Novelty Foliage Plants for Pot Culture and Horticultural Plant Materials for propagation of Ornamental Foliage Plants. We offer these in Canes, Vines, Unrooted Cuttings, Rooted Cuttings, Seedlings, 2 $\frac{1}{4}$ " Pots, and other sizes depending upon your requirements.

We can also supply Dahlia Tubers, Bulbs of Fancy Leaved Caladium, Gloxinias, Tuberous Rooted Begonias and other miscellaneous items used by every grower and retailer with growing facilities. Inquire for these.

Quoted prices are subject to change. In those instances where no price is quoted, the market price at the time of shipment will prevail. Rooted Cuttings and Unrooted Cuttings, minimum order, 100.-250 of a variety charged at the 1,000 rate, except where noted.

All prices are F.O.B. source or, in the case of imports, F.O.B. port of entry.

Terms are 2/10 net 30 to those of approved credit, and cash with order where no credit rating is available.

While many of the items are available throughout the year, others are only obtainable during certain seasons. All orders are subject to prior sale.

IMPORTANT: All precautions are taken with regard to transit regulations to prevent losses; therefore, in the event of losses due to transit conditions, it is imperative that the consignee file claim immediately with the carrier.

Every effort is made to ship good quality stock at reasonable prices and our aim is always to please our customers.

SPECIAL NOTE

We encourage the placing of orders for your anticipated yearly requirements to be shipped on a scheduled basis. This gives you an opportunity to increase your business by preventing your stock from being depleted of popular selling material. It is also an assurance of getting a supply of items regularly which are scarce and hard to get.

In our estimation, it is an essential and advantageous step in supplying the constant demand for Novelty Foliage Plants and other plant material of this nature; since these are being featured by all interior decorations in the building and decorating pattern of every home or business structure. We welcome the opportunity of discussing this with you.

DAHLIA TUBERS

We have over forty varieties to select from, Large Flowering, Miniature and Pom Poms. All are the best commercial varieties as well as novelty garden varieties ideal for the grower retail florists as well as wholesale growers. Delivery from December through May.

We mainly advertise these in the classified section of the Florist and Nursery Trade Papers or send for our Dahlia list.

SPONGE ROK

Rock of Volcanic origin exploded under heat and pressure to form small white pellets containing many small holes, sponge like, which store air, food and moisture so necessary for plant growth.

Exceptionally good rooting medium for cuttings.

Ideal for starting seed when used with peat moss or leaf mold.

Excellent soil conditioner. Makes heavy soil friable, more workable and air conditions it. In sandy soils it helps retain moisture.
